**NOTES:** 

Noble male of 26 months. Lovely outline. Really good head in right proptions. Lovely eye and expression. Nice muscle. Cuddlies en bites. Lovely neck but would beter topline. Good forchest, but needs todevepop in ribcage with age. Bit upright in croupe, lovely bone good feet. But for me he caries the tail to high. Good mover but very close behind and i would be prefer more drive. Lovely temperament easy going.
